# Disability Inclusion

## ABOUT

- Disability inclusion means including people with disabilities in everyday activities and encouraging them to have roles similar to their peers without disabilities.
- Inclusion should lead to increased participation in socially expected life roles and activities.
- This requires communities and organizations to put adequate policies and practices in effect.

Organizations include KP and Lutheran Social Services of Southern California. Be sure to follow links provided in this email. They are safe scanned as safe to browse.

---

In conclusion after we get the ball rolling on what we expect of each other, listen to this audio narrative in KP's @RealityAudit folder. It is a long address I know. All of what is said there must be said onto light and view for us to proceed like these circumstances matter: they are not fine and represent a hardship to continue. This must be reconciled as best as humanly possible with your assentence or the legal aid of a lawyer. What has happened here is real.

I can not proceed to know these documents are also important.

Mental Advocacy Letter

And current CD4/CD8 ratio very  
Dirly low ) at value 0.42 taken  
Last week.

<https://www.webmd.com/hiv-aids/what-to-know-about-cd4-cd8-ratio-test>

-----  
Cause of circumstances outside of  
Both KP and Lutheran influences.  
Foothill Aids Project has me on a lifetime  
Ban of services based upon what happened  
With my HIV Doctor March 2019 forward.

My doctor ( Doctor Eric Tomoni Shigeno )  
Terminated my care in March of 2019.  
The conflict ended up in court with a bogus  
Restraining order complaint. The San Bernardino  
Police department visited me before the  
Restraining order was filed. I told the police  
I informed the police at the door of my residence  
I would violate any such restraining order.  
This went to court and a restraining order  
Was granted. A year later, I still did not  
Have a HIV doctor that would intake  
My care into a medical record.

I remained in a state of #HIVUntreatable  
Going on several reset of primary care doctor  
To infectious disease referral.  
About 5 attempts with various doctors  
Led me to conclude the conspiracy  
Elements of #HIVUntreatable are true  
No one would take the time to talk about  
A conspiracy truth and the medical history  
Of cause and effect this has had on my  
Overall HIV and Mental Health.

Dates are important.

TO WHOM IT MAY CONCERN:

Mr. James Driskill has been a client of mine for Individual Psychotherapy since October 30, 2006. He has been attending Foothill AIDS Project's (FAP) "Living Well With HIV/AIDS" men's Support Group on a weekly basis since September 2006. He was self-referred for Individual Psychotherapy.

Mr. Driskill sought treatment for a high level of stress and anxiety primarily regarding his housing situation. He became homeless in Oakland earlier in 2006 and is currently residing with his family and extended Family in San Bernardino.

In addition to his unresolved eviction in Oakland he was not able to secure immediate housing through the AIDS Housing Program in San Bernardino County due to a waiting period for each new applicant. These events resulted in Mr. Driskill experiencing a High level of anger and frustration.

While in both settings of therapy, Men's Support Group or Individual Psychotherapy, Mr. Driskill accepts the fact that he has an upfront, in your face style of confrontation.

The men and I have come to realize that his style is primarily a reaction to his extreme level of frustration and we have learned not to be put off by his style. In these affirming settings he has learned to modify his style of confrontation which should continue to improve. I have also been impressed with how Mr. Driskill has sought out resources on how to understand and to cope more effectively while experiencing an almost complete lack of support from agencies and individuals. One such resource was the book "Please Understand Me: Character & Temperament Types", Kiersey, Davis and Bates, Marilyn.

His Mental Health and HIV Health status were both clinically affected

by his housing crisis in Oakland and here in San Bernardino. He

is currently responding well to the treatments and his prognosis is good.

However, I believe that until there is an appropriate resolution (he wants an absolution) of his housing conflicts, he will remain in a vulnerable state regarding his overall HIV and Mental Health status.

Sincerely,

Howard, MD Howard. Newsom Phon.

Years ago -

This agency is FRAUDULANT in its services and practices

when it comes to serving the HIV population

and utilizing Ryan White Funding. My recommendation for

any HIV client interested in signing with them is to run  
as far and as fast as you can...they treat HIV consumers  
with contempt and unprofessionalism.

-----

This Google review has been updated by  
Arron Jacobson to current reflect a  
Change over of staff at the San Bernardino  
Location.

Now let's baCk to that pest of a restraining order!

With no HIV Doctor for over a year since March 2019,  
I violated the restraining order by faxing the doctor,  
Faxing the police and faxing Foothill Aids Project.

The doctor died less than two weeks  
Later on April 10th. My doctor did not follow  
His fiduciary and moral responsibility to  
Find me a new doctor care in his need to remain  
Silent to coverup an ongoing a vast  
Conspiracy. In the effort I first made  
In correspondences with the doctor during  
Clinic period of time and After when I  
What was filed Im court in my defense  
Defendant side of this case plus the  
Content I used to violate the restraining  
Order ( All content already filed in this  
Public archive dat record ), the  
Doctor would not talk about the issues  
I needed him to discuss within my  
Hi Care provider care. Instead he was  
Allowed to win. Hate was allowed to win  
One more time against me.  
The doctor with the facts uncovered did not of a so called stroke.

He most likely than not beyond the proponderance  
Of the evidence died by suicide on  
April 10th 2020.

And took what he knew to his grave.

Doctor Shigeno worked for the Borrego Health Clinic in San Bernardino. It was last time he breathe a breath on April 10th 2020, but the probe and investigation that raided the offices of Borrego Health in October of 2020.

Both here in San Bernardino and Chocalla Valley Near Palm Springs speaks volumes from the Incident that day in March Of 2019.

Google AI Overview:

### AI Overview

+2

In October 2020, the FBI and state police raided Borrego Health and Premier Healthcare offices in connection with a criminal investigation into Medicare fraud.

### Explanation

- Borrego Health is a non-profit organization that provides primary and specialty care to underserved communities in Southern California.  

- Before the FBI raid, Borrego Health was one of the largest Federally Qualified Health Centers (FQHCs) in the United States.  

- In August 2023, Borrego Health was sold to DAP Health, and the two organizations merged.  

FYI: Doctor Shigeno is a former employee of DAP Health before he was employed by Borrego Health.

### Aftermath

- Borrego Health sued former executives, staff, and contractors nearly two years after the raid.
- Hackers also gained access to email accounts and potentially patient data at Borrego Health.
